Become a bed-sponsor!

Moving Baltic Sea, the travelling film and environmental festival, is looking for berth sponsors for the summer 2008 Rostock to St. Petersburg sailing tour!

On board of the hundred-year-old sailboat Lovis a group of active youths will travel to six different cities along the Baltic Sea as part of the festival.

Through the work of dozens of volunteers and the support of an EU Youth Program grant we organized the festival and put together a sailing crew. We still need your help to sponsor one of the 30 berths for volunteers on board the Lovis!!

The sailboat embodies the eco-friendly message of the festival and symbolizes the interconnectedness of the Baltic Sea countries. Plus the Lovis itself will be the workplace for the Moving Baltic Sea team as we evaluate and prepare the different festival stops, and hold workshops and press conferences on the deck of the ship .

Due to its beauty and historic charm, the Lovis will be the heart of the Moving Baltic Sea festival. It will weigh anchor at central locations in the coastal cities and all festival activities will take place in or around the ship, making it a focus of attention and a key part of the campaign.

With a donation of 750 EUR you can adopt a berth and give a young activist the chance to make a difference with Moving Baltic Sea. .

As a little “thank you” for your contribution you will receive:

- A nice plaque with your name on it above the berth, attributing sponsorship to you throughout the entire journey of the Lovis
- A postcard from each festival stop from the volunteer you sponsor, giving you a sense of the impact of Moving Baltic Sea
- An elegant certificate (including a picture of you and your berth if you want), documenting your sponsorship of the berth
- And of course a donation receipt for your tax return.

We would be happy to “welcome” you as berth sponsor on board Moving Baltic Sea. Become a sponsor yourself or offer a sponsorship in the name of a friend or business partner as a gift.

We look forward to answering all your questions about the project and the berth sponsorship campaign!

Thanks and full speed ahead! Your Moving Baltic Sea Crew
